

CC:

[Jillian Balow](#), Superintendent of Public Instruction

[Elizabeth Schultz](#), Assistant Superintendent of Public Instruction

[Dr. Leslie Sale](#), Director of Office of Policy at the Virginia Department of Education (VDOE)

[Jim Chapman](#), Regulatory and Legal Coordinator at the VDOE

[Charles Pyle](#), Director of Communications & Constituent Services at the VDOE

[Adria Merritt](#), Director for Diversity, Opportunity and Inclusion Pathways at the VDOE

To Whom It May Concern:

We are a coalition of 602 Queer youth and allies who are current public school students in Virginia. We are writing this letter to express concerns around the guidelines the Virginia Department of Education is currently drafting on [Senate Bill 656](#).

Passed in 2022, [SB 656](#) requires the Department of Education develop model policies that notify parents when “any instructional material” includes “sexually explicit content” and allow parents to opt their child out of any instructional content involving this content. Local school boards are required to adopt these model policies by January 1st, 2023.

SB 656 defines “sexual explicit content” with subsection A of Virginia Code § [2.2-2827](#). Subsection A of § 2.2-2827 rightfully specifies that “sexual explicit content” includes bestiality, pornography, or fetishism. However, subsection A of § 2.2-2827 also defines sexual conduct using Virginia code [§ 18.2-390](#). Virginia code [§ 18.2-390](#) explicitly states that “homosexuality” is “sexual conduct.” **In effect, SB 656 can potentially be interpreted to define all references to people in same-sex relationships as inherently sexual.**

We are writing to you to ask that the Department of Education develop guidelines that explicitly state that instruction about LGBTQIA+ people is not inherently sexual.

Discussions about Supreme Court cases such as [Lawrence v. Texas](#) and [Obergefell v. Hodges](#) are not sexual in nature, nor is instruction on key Queer figures in history, including [Alan Turing](#), the celebrated Allied code-breaker who was subjected to homophobic persecution, and [Ben Barres](#), a pioneering transgender neuroscientist who changed our understanding of glial cells. Similarly, discussions about same-sex families, important events in LGBTQIA+ history like the Stonewall Riots and the HIV epidemic, and works by famous Queer authors such as [Virginia Woolf](#) and [Alice Walker](#), are simply not lewd.

Developing guidelines that fail to explicitly specify that LGBTQIA+ topics are not inherently sexual would have a chilling effect on our education. Erasing Queer people from our classes would lead to fictionalized and over-simplified instruction, given the immense contributions that LGBTQIA+ people have made to our state and county. Moreover, every student, including LGBTQIA+ youth, deserves to be accurately represented in our

To protect the privacy of students who are not out to their community, family, or schools, only student initials are shown.

curriculum. Representation is associated with stronger academic performance, improved mental health, and social prosperity. This need for representation is heightened for the LGBTQIA+ community, given Queer students' exceptional vulnerability to suicide and the mental health crisis. [National](#) research suggests that 42 percent of LGBTQ+ youth, including 52 percent of transgender youth, seriously considered suicide in 2021, compared to 15 percent of heterosexual youth. Similarly, [Virginia surveys](#) suggest that Queer youth are disproportionately impacted by harassment and discrimination.

For the sake of our education and our safety, we ask that you develop guidelines around SB 656 that clarify that the LGBTQIA+ community is not inherently sexual.

Best,
